To: All Staff and Parents
Re: School Website
Date: June 3, 2016

The Oneida City School District is very excited to announce that we will be launching a new school website. Our current website hosted by School Fusion has been bought out by Blackboard and is losing support. We will be migrating from School Fusion to a new vendor, School Messenger. The migration to a new vendor platform will bring a newly designed web experience that is compatible with mobile devices and easily integrates with our emergency-broadcast system and future mobile app.

It is our goal to provide all of our parents, students, teachers, and community members with the most accurate and up-to-date information. Our website address will stay the same (www.oneidacsd.org) and will proudly feature the same bright colors of blue and orange but with a cleaner design and user-friendly feel.

Our public relations group, administration, and teacher and department representatives will continue to discuss design and migration strategies in the months to come. We encourage all stakeholders and community members to provide suggestions within a form located on our current website. We thank everyone in advance for their patience as we embark on this project of continuous improvement and long-standing commitment to learning.

Throughout the next few months our website will be updated regularly and we hope that you enjoy discovering the new website as an evolving work in progress.

Sincerely,

Ron Spadafora
Superintendent of Schools

Genevieve Brauner
Administrator for Technology
